About Us

Chemicals are used in a variety of applications in school labs and industrial manufacturing of products like soaps, garments, paints and many others. Incepted in 1990, Hemanshu Chemicals is a leading enterprise which deals in premium quality chemicals which are procured from the best of dealers in the markets worldwide. We are the leading traders, importers and suppliers of an array of quality chemical products which are supplied at the most reasonable prices to the domestic market. Some of the chemicals that we deal in include Diluted Nitroglycerine,

In the last 20 years we have carved a special niche for ourselves in the chemical market. The commendable leadership of our Director Mr. Shailesh Shah and the sincere dedication of our team members, has helped us in earning a large number of loyal customers. In order to ensure that only premium quality chemicals are supplied to the market, we import the best quality of chemicals from countries like China, Taiwan, Korea, etc. We also, procure quality products from manufacturers in the domestic market.

Quality

Hemanshu Chemicals supplies premium quality of chemicals to its clients at very competitive rates. Our procurement agents ensure that we deal only in the best quality of chemicals. We source our wide range of chemicals from the reputed and authentic international as well as domestic suppliers. We certify the quality of the chemical products at our in-house quality control facilities, before supplying them to our clients. Our chemical products strictly comply to 'The Drugs & Cosmetics Act, 1940'. The products are packed in special containers and stored in our sophisticated warehouse, which has special temperature control facilities. Only our expert loading and unloading team handles the products during the warehousing and transportation stages. We use the latest transportation facilities to deliver our chemical products in a safe manner to our valued customers.

Infrastructure

Hemanshu Chemicals has earned tremendous customer response in the past 20 years, due to the efficient manner in which it manages and satisfies its clients. We have a modern infrastructure set up to help us in delivering our products and services work with perfection. We have a highly efficient team to handle our entire range of operations. Our team consists of highly skilled and experienced Procurement Agents, Public Relation Experts, Quality controllers, Sales and marketing Personnel, HR Staff, Accounts and Finance personnel, and various other technical and non-technical staff. We work with dedication to supply the best quality of products to our valued customers.
